Kagan 2018 USA Tour

Cooperative Learning

Engage students and raise test scores with teacher-friendly strategies you can implement tomorrow! In this workshop, you'll experience cutting-edge teaching structures to create classroom success now and forever! In addition, you'll learn management tips, how to form effective teams, strategies for creating a cooperative class through teambuilding and classbuilding, and why cooperative learning produces gains when group work often fails. Finally, a class that has practical, hands-on ideas grounded in sound research and theory.

- Pump up the fun, friendships, and liking for learning and each other with Classbuilding and Teambuilding
- Experience why group work simply doesn't work for everyone, and why Kagan Structures do
- Save valuable time and energy with easy-to-use structures that make lesson planning a snap
- Keep students on task and effectively manage disruptions with engaging structures
- Master the different types of pairs and teams, how to form them, and when to use them
- Provide students the will to work together and the skills to do so successfully
- Take away hot management tips that will make managing your cooperative class a snap
- Fully understand and implement basic principles that spell success for your students
- Create an environment where all students are accountable for complete engagement, every day

Great for ELL

Accelerating Achievement

Based on years of experimentation and field-testing, Dr. Spencer Kagan has perfected simple instructional strategies and structures that dramatically increase the achievement of all students, especially low-achieving and low-ability pupils. In this active workshop, you will experience these strategies, derive the rationale, and learn ways to adapt them to your own classroom. They have two proven outcomes: Excellence and Equity. The Kagan Structures not only boost achievement for all students (increased excellence), they decrease the gap between low- and high-achieving students (increased equity). The strategies lift up the lows while accelerating the achievement of all students. Come learn how to apply these easy-to-learn, easy-to-use instructional strategies in any lesson, at any grade level.

- Boost test scores with an approach that is backed by scientific studies and loved by teachers
- Experience easy-to-implement, research-based cooperative instructional strategies
- Accelerate content knowledge with structures for mastery and retention
- Watch all students excel, especially lower achievers
- Engage all students with strategies that encourage participation by each student
- Give every student a circle of peer encouragement, support, and tutoring
- Master new structures designed to address the five dimensions of accelerating achievement

Brain-Friendly Teaching

Surprising new brain imaging techniques give us new windows into real-time brain functioning. For the first time, we can actually view which parts of the brain are engaged as we use different instructional strategies. Through this technology and other advances in brain science, there is an emerging understanding of which teaching methods best align with how the brain best learns. Learn more about how the brain actually learns and which instructional strategies are brain-friendly and which are not. Find teaching easier and far more effective as you adopt proven brain-friendly structures!

- Put brain science to work to maximize learning
- View brain scans showing how brains "light up" with different types of student interaction
- Master the Kagan Structures that make every lesson brain-friendly
- Experience a wealth of Tools, Tips, and Kagan Structures to create total brain engagement
- Create a safe learning environment where learning, thinking, and creativity flourish
- Nourish the brain with Number Group Mania!
- Discover stimuli that boost comprehension and retention of content
- Apply the principles of brain-friendly teaching in every lesson

"Excellent content! The Kagan learning structures taught were so interesting and engaging. I LOVE how we were taught the structures while engaging in the structures themselves. I love how applicable these structures are in all content areas!"
—Jocelynn Pawlak, 4th Grade Special Education Teacher

"I have so much info packed in my brain it's unreal! I'm ready to start working on this tomorrow. First time I've actually been able to go back and utilize immediately!"
—Sherry Harrington, 4th Grade Teacher

"This is the BEST training I have ever received. I have never been more impressed or enthused to try a program. I wish I had been exposed to this much earlier on in my career."
—Naomi Castellon, Special Education Teacher

Higher-Level Thinking Skills

In this dynamic, hands-on workshop, you will experience simple instructional strategies to engage and develop the fifteen most fundamental thinking skills. Adopt simple structures to develop each of these skills with no time away from your academic curriculum! Learn how to embed the thinking skills into how you teach, so every lesson becomes a thinking skills lesson. Improve academic engagement, retention, and achievement—but most importantly, prepare every student with thinking skills they will use for a lifetime!

- Explore the 15 most fundamental thinking skills
- Jump-start students' critical and creative thinking
- Prepare students for a rapidly changing world
- Generate higher-level thinking among all students
- Integrate thinking skills across your curriculum, in every lesson
- Strengthen students' analytical skills
- Enhance synergy with cooperative brainstorming

Free Materials

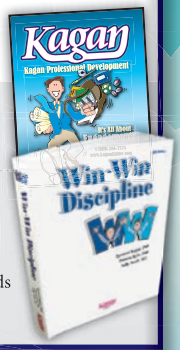
Save $15! **Code: CHLT1B**

Win-Win Discipline

Create discipline solutions where you win and your students win. Gain a new perspective on discipline problems and come away with tools that really work. Convert every disruption into a learning opportunity. Go beyond ending disruptions—teach responsible behaviors and life skills. In this Win-Win Discipline overview, you'll learn all the basics: to identify the four types of disruptive behavior; to recognize the seven positions from which they spring; and what to do in the moment-of-disruption. Learn to follow-up and to prevent future disruptions. Experience the power of the most comprehensive approach to discipline ever created.

- Boost your confidence in handling all types of disruptions you face
- Understand why your students misbehave and what to do about it
- Promote responsible behavior in your classroom
- Deal appropriately with aggression, confrontations, rule breaking, withdrawal, and clowning
- Channel your overly energetic students' disruptive behavior into productive learning
- Adopt preventative discipline strategies that address problems before they happen
- Create a safe, comfortable classroom focused on learning, not discipline



Free Materials
1) *Win-Win Discipline* Book
2) Win-Win Discipline Workbook

Special Discount Package
1) TimerTools Software
2) Seven Classroom Management SmartCards
3) Four Win-Win Discipline SmartCards
