

Your School or District

Look What Kagan Offers...

1-Day Introduction

If you're new to Kagan and want to find out what all the buzz is about, Structures for Cooperative Learning and Active Engagement 1-Day Introduction is for you. Every workshop topic is available as a 1-day to motivate your teachers, and provide your team with powerful and proven strategies they can use tomorrow, and for a lifetime.

2-Day Workshops

Move beyond the basics. 2-Day workshops are recommended for a more in-depth examination of the topic. With more time comes greater understanding of the content, more classroom implementation, and most importantly—more structures! Two days spent with Kagan are two days that reap benefits for teachers and students for years to come.

Week-long Institutes

A week-long comprehensive institute explores the topic in great depth. Each day, your teachers will gain greater skills and confidence. Week-long institutes may be presented consecutively or non-consecutively. Your teachers will be renewed, reinvigorated, and ready to return to their classrooms with a whole new toolbox of teaching strategies to enhance learning, management, and provide students with the essential skills to succeed in school and beyond. See why many educators call their week with Kagan the best professional development experience of their teaching careers.

School and District Programs

Kagan's workshops have the reputation for being the most teacher friendly and effective in education. But do you know Kagan offers much more than workshops? Turn your school or district around with Kagan's Comprehensive School and District Reform Packages that ensure results. Kagan knows how to create successful, lasting change. Let Kagan create a training and coaching program to make a positive difference for your entire school or district.

"Needless to say, Kagan has been one of the most positive, successful professional development initiatives the district has implemented. Teachers are using more effective cooperative teaching strategies in their classrooms and students are enjoying learning more. Thank you for all the help and support over the past 5 years."

**Judy Leary, Director of Curriculum
Massena Central School District**

"We have had three years of Kagan professional development and attribute our success as a school to our knowledge of the Kagan strategies."

**Kathy L. Kennedy, Principal
Long Hill Elementary School
National Blue Ribbon School**

"What a difference the Cooperative Learning and Multiple Intelligences trainings have made in our school! Kagan Structures and strategies have produced a decrease in the number of disciplinary incidences from last year, even though our enrollment is higher this year. I am amazed to observe high school students who, previously, did not want to attend school, but now have the desire to attend school on a daily basis. Words cannot express our gratefulness and appreciation towards you and your entire staff for your continued support."

**Cecil McClellan, Jr., Director,
Lake Gibson High School
Academic Research Charter School**
