

Cooperative Learning

Kagan cooperative learning is unlike any other approach to cooperative learning. Why? Kagan teaches cooperative learning structures, easy-to-learn and easy-to-use cooperative strategies that generate student excitement and engagement with all grades and with all content. With Kagan Structures, teachers easily implement research-based practices. By example, Kagan shows teachers to build powerful learning teams. Use the Kagan methods for team formation, teambuilding, classbuilding, management, mastery, higher-level thinking, and social skills. Teachers will add dozens of Kagan Structures to their teaching toolbox that are easy to use tomorrow and for a lifetime. Finally, a class that has practical, hands-on ideas grounded in sound research and theory!

Rave Reviews for Cooperative Learning!

"In my thirteen years of attending workshops and training, this has been the ONLY information I have received that I feel I will use until I retire."

Emma Slyow, 3rd Grade teacher

"This workshop is one of the best if not the best I have been a participant of in over 20 years of teaching. I can't wait for more!"

Paul Pearson, 9th-12th grade teacher

"This is very possibly the best workshop I've ever been to. It provided a wealth of great ideas and wonderful structures to engage students in successful learning. I can't wait for school to start now!"

Diana Taylor, 3rd-4th grade teacher

"I can't wait to try out everything we've learned in the Cooperative Learning workshop. Truly, the most valuable week I've ever spent learning how to improve my teaching ability. Many thanks to all you do to improve education of all the children we touch."

Pamela Cheney, teacher

"I am so excited about what I learned. I can't wait to try it out 'for real.' I know my kids will love cooperative learning. I need a change because I have felt that I was starting to go through the motions. Now my teaching will be effective and I will again have so much fun!"

Elaine Miller, 9th-12th grade music teacher

"I am really motivated to go back to the classroom and share/use what I have learned. My students are going to love our NEW ways of learning!!!"

Wilma Scott, 2nd grade teacher
